

## ANNUAL INSURANCE REVIEW

### FEBRUARY 2021

A new year is here, and it's a great time to review your insurance policies.

It can be easy to treat insurance as an item to check off and forget about after you complete the purchase of a home or car. However, you renew your policies each year to help you stay financially afloat following any mishaps that may happen. To help ensure your policies provide the protection you need for the upcoming year, we recommend a careful review of your information and policies annually.

Several of the most common situations that may require an update to your policies are:

- You have a change in marital status
- You have completed home renovations or added on to your home
- You rent out your property or land to others
- You bought or inherited land or other expensive/valuable items
- You operate a business out of your home
- You brought a new pet into your home
- You purchased a trampoline, playground equipment, or added a backyard swimming pool
- Your child becomes a licensed driver or you have a new driver living in your home
- You drive more or less than you did in previous years
- You use your vehicle for business purposes, make deliveries, and/or participate in ride sharing
- You may also qualify for discounts(!) – bundling, qualified home protective devices, good driver/student, and more

Neglecting to make any needed changes or updates can lead to gaps in coverage and keep you from landing on your feet at claim time. But don't worry! We're here to help walk you through your policy review each year so you can have peace of mind when unfortunate events do occur.
