5 TIPS TO AVOID DISTRACTED DRIVING

Prepare for Your Trip Before You Hit the Road

- 1 Make sure you have the destination plugged into your GPS with the sounds on before you leave so you will not have to take your eyes off the road to look at the screen.

Put Your Electronics to the Side

- 2 Do not use cell phones while driving. It can be tempting to check your phone if you get an alert. Be sure to put your phone on silent to help reduce the urge to respond.

Get Ready at Home

- 3 Give yourself plenty of time to get ready in the morning. This way, you can avoid trying to do those last-minute touch ups to your makeup or even shave while driving.

Save Eating for the Dinner Table

- 4 It can be tempting to run through the drive thru to get a quick bite. However, a cup of hot coffee or a dropped burger could cause a major distraction while on the road.

Secure All Passengers

- 5 Make sure kids are properly buckled before you leave. If you are traveling with pets, it is always a good idea to crate them.
